Thank You

Thank you for joining East End Arts in honoring Bank of America. We are proud to have this opportunity to recognize Bank of America for its continued support of our mission to build and enrich our community through the arts by way of education, support, advocacy and inspiration.

Bank of America has a long tradition of supporting community development through philanthropic funding and volunteerism. The Bank of America Charitable Foundation helps improve local communities by addressing issues fundamental to economic health and sustainability. Recognition of East End Arts as a Bank of America Neighborhood Builder in 2011 made a fundamental impact on the organization, creating a platform for the current trajectory of growth and opportunity.

With support from corporate and individual donors, East End Arts has been serving our diverse community of artists and musicians for over 40 years through exhibitions, performances, and events. We also seek to provide leadership for the cultural development of our five East End towns, and deliver essential programming and professional development opportunities through the work of East End Arts School. In the past year, a total of 243,906 hours of educational instruction has been provided. Eighteen percent of East End Arts students are recipients of scholarships.

Your attendance at tonight’s event not only shows your gratitude for Bank of America’s support of the arts, but also assists East End Arts’ efforts to serve our community through gallery exhibitions, educational programs, festivals and more. You are East End Arts.

Nile Rodgers

Multiple Grammy-winning composer, producer, guitarist, co-founding member of the band CHIC, and co-founder/chairman of the We Are Family Foundation.

The career of Nile Rodgers is one of the most enduring and prolific in music. Among music legends, Nile Rodgers is truly exceptional. He amplifies his legacy as a Grammy-winning composer, producer, arranger, and guitarist by constantly traversing new musical terrain and successfully expanding the boundaries of popular music. As the co-founder of CHIC, Rodgers pioneered a musical language that sparked the advent of hip-hop with “Good Times,” distinguished CHIC as the “most sampled band in history” (The Guardian, 2011), won CHIC ten Rock and Roll Hall of Fame nominations, and generated groundbreaking pop hits like “Le Freak,” which was inducted into the 2015 Grammy Hall of Fame. His career-defining productions for David Bowie (Let’s Dance), Madonna (Like A Virgin), Diana Ross (diana), and Sister Sledge (We Are Family), plus his work with artists like Duran Duran, INXS, Mick Jagger, Grace Jones, Steve Winwood, Peter Gabriel, The B-52s, and Michael Jackson, have sold over 200 million albums and 50 million singles worldwide while his innovative, trendsetting collaborations with Daft Punk, Avicii, Disclosure, and Sam Smith reflect the vanguard of contemporary music. Additionally, Nile is the Chairman and Founder of the We Are Family Foundation (WAFF).

“I am so glad to be partnering with East End Arts and their mission of community enrichment through the arts and education. One universal language unites us all, and that is, The Arts. That is why East End Arts is a prime example of what I believe and stand for. Join me in supporting this wonderful organization and together, through the arts, we can make our world a better place.”

*Through a Glass Darkly, Archival Digital Print, 18” x 12” by artist Andrea Cote*

As a multimedia artist, Andrea Cote uses photography, prints, paintings, sculptures, performances and installations to create her work. She uses her desire to reconcile interior and external experiences of the body, to plumb the psyche, and capture the fleeting nature of emotion, sensation and memory. In *Through a Glass Darkly*, she re-frame's cast-off creations with a sinister and humorous lens. The markings of time through rust and decayed photographs convey a painful nostalgia. Reminiscent of Calder’s wire circus and early surrealist assemblage, she utilizes an overhead projector and pins the elements to the studio wall. The cutouts and arrangements explore the act of looking and reflecting, and the idea of “exposure.” Broken narratives are created through intuitive pairings, with impulses at once playful, archetypal and uncanny. In this body of work she tries to maintain a spontaneity and honesty, and embrace her own artistic and personal mythology, where one’s own story speaks to a collective and universal narrative.
